#### **PURPOSE:**

This module is aimed at describing the importance of evidence-based practice (EBP) in healthcare and nursing practice, offers strategies for applying EBP to improve care delivery and assure patient safety, and provides critical thinking exercises that allow nurses to practice finding sources of evidence within their practice setting, identifying facilitators and barriers to EBP implementation, and applying EBP to clinical scenarios.

#### **LEARNING OUTCOME:**

After this training, learners will be able to define nursing roles in EPB use in their setting.

#### **DISCLOSURES:**

All presenters and planning committee members have completed a Financial Disclosures document that includes an explanation of Relevant Financial Relationships. Based on these forms none of the planning committee members or presenters have relevant financial relations with ineligible companies to disclose.

#### **AVAILABLE CONTINUING EDUCATION:**
